

ALLIED ARMY IS IN PEKIN
MINISTERS ARE ALL SAFE

Foreign Forces Entered the Chinese Capital on Aug 15
Without Any Fighting...Foreigners Were
at Once Liberated.

EMPEROR, EMPRESS AND TUAN HAVE FLED

In the Advance From Ho Si Wu the Allies Easily
Scattered the Celestial Troops—Russians De-
feat Chinese—Reparation and Indemnity.

London, Aug. 17.—[Special Cablegram.]—A dispatch received from Shanghai to Reuter's bureau confirms the report that the allies entered Peking on August 15, without any fighting. The ministers and all foreigners were liberated. It is reported that the empress, emperor, Tuan and the imperial troops left Peking on August 7 for Hai Au Fu. It is believed that the troops of Yuan Shi Kai marched to Shensi province to cover the flight of the empress. In the advance from Ho Si Wu to Tung Chow the allies easily scattered the troops of Generals Siang and Ching. The allies captured eight guns. It is reported that Li Hung Hong was wounded at Yangtsan. The German guards on the Peking wall heliographed the allies at Tung Chow.

The Glad News Is Confirmed.
Washington, Aug. 17.—[Special Telegram.]—The report that the allies entered Peking on Wednesday is confirmed. The American, Russian, German, French, English and Japanese troops entered in the order named. They met no opposition and all is reported quiet. The American legation, it is reported, was not molested, but the others were attacked constantly. The boxers have fled, and also the empress, emperor and Prince Tuan.

Berlin, August 17.—[Special Cablegram.]—An official dispatch says Li Hung Chang is authority for the statement that the allies entered Peking without opposition. The first authentic news of the relief came in an official dispatch to the German government which was given out in Berlin early today.

It Pleases Minister Wu
Washington, August 17.—[Special Telegram.]—Minister Wu was greatly pleased by the report of the rescue of the ministers by the allies, but cannot believe the report that the Empress Dowager, Emperor and Prince Tuan had left Peking. He himself had no new advices. The cabinet members are fully satisfied that the relief is an accomplished fact.

BELIEVE THE ENVOYS ARE SAFE
Encouraging Reports but Still No Official Confirmation.
Washington, Aug. 17.—Official Washington believes the allied forces have rescued the diplomats and the entire foreign contingent in Peking. It is believed this has been effected through an armistice, the first condition of which was the turning over of the legations to the allies either at the walls of Peking or within the imperial city itself.

Li Hung Chang's Appeal.
This belief is born out by official revelation of the fact that Li Hung Chang has asked such an armistice and that Gen. Chaffee had been previously instructed to grant a truce in behalf of the United States, provided the safety of the legations was assured.

From high sources at the state department it was learned that almost identical instructions in this regard have in all probability been sent by the European powers to their commanders with the relief column.

News of the rescue of the diplomats and other foreigners in Peking is therefore hourly expected by the state department.

Report Peking's Capture
London, August 17, 8:45 a. m.—A cablegram to Vienna from Hongkong announces the capture of Peking, but the Austrian government, like other European powers, is still without confirmation of this report.

An official telegram dated Taku, Aug. 14, has been received at Rome which asserts that the attack on Peking began on Monday, that Sir Claude Macdonald,

MAKE GAINS IN
WESTERN STATES

M'KINLEY ASSURED OF VOTES
LOST FOUR YEARS AGO.

Sentiment is Changing—Senator Shoup of Idaho Says Free Silver Republicans Are Returning—South Dakota is in Line—Anti-Imperialists Are Not Dangerous—Hanna Not Sick.

Chicago, Aug. 16.—Vice Chairman Payne of the Republican National committee received more information yesterday to confirm his claim that McKinley and Roosevelt would this year carry Western states which four years ago cast their electoral vote for Bryan and Sewall. Mr. Payne has contended for some time that the prosperity of the country, developed during the present administration, has practically destroyed the populist and free silver parties in these states, and as they, and not the democrats, were the factors which carried them in 1896, this year these states could be depended on to return to the republican column, where they were originally.

Idaho Safe For McKinley.
Mr. Payne's first caller was Senator Shoup of Idaho, and he brought word that his state could be depended on to vote for McKinley this time. The senator said that not only were the democrats, populists and free silver republicans of Idaho in a bad tangle over their plans of fusion, but that even if they succeeded in getting together there was but little chance of their carrying the state.

Good News From South Dakota.
Frank Crane, chairman of the republican state committee of South Dakota, was another caller who brought the same information to headquarters. He said there was hardly a doubt that South Dakota would this year give the republican national ticket a good majority. The farmers, he reported, had had good crops, and were more prosperous than for years, while the nomination of Roosevelt would be a great help to the ticket among the miners and cattlemen in the western part of the state, where he is known and popular.

Roosevelt Is in Demand
Mr. Crane's special business in Chicago was to arrange for some speeches in his state by Governor Roosevelt, and he was told that the candidate for vice president would be there for three. The places where he is to speak are not yet determined upon.

Speaking of the senatorial fight, Mr. Crane said that Mr. Pettigrew was making a hard struggle for re-election, but it looked as if the legislature would be republican.

Anti-Imperialists Not Dangerous
Vice Chairman Payne said that the republican national committee had paid and would pay but little attention to the actions of the anti-imperialist convention in Indianapolis. Its course had been long ago discounted, he said, and the men who took part in it were more apt to repel than to attract votes. As for ex-Secretary Boutwell, the information from Massachusetts is that he does not lift a pound politically there, and if he cannot effect anything in the Bay State he can do no harm anywhere else.

UNITED STATES IS
NEXT TO FRANCE

Leads the World in Prizes at the Paris Exposition—No Chance to Be First.

Paris, Aug. 17.—Next to France, the United States leads the world in number of honors won at the universal exposition. The American exhibitors have been awarded approximately 2,500 grand prizes and gold and silver medals. This is not only a larger number than the United States commission expected, but it exceeds the number granted to any other foreign nation.

Nearly one-half of the 70,000 exhibits at the exposition are from France, and of course this country was bound to be awarded the greatest number of prizes. There was no possibility of any other nation approaching her in that respect, but had she been limited in space and exhibits like others, it is quite possible the United States might even have distanced her in the matter of international honors.

The United States, with about 6,500 exhibits, had more than twice as many as Germany, its nearest rival. The results of the awards is the best evidence as to the merit of the American display. It is a great triumph for Yankee art and skill. Take the matter of art, the department in which the young giant of the west had least to expect. It is one of the remarkable incidents of this fair that American painters carried off more honors than the painters of any other foreign land.

Mrs. David Jeffris is reported seriously ill at her home, 58 South Jackson street.

CAMPAIGN TO BE
ON STATE ISSUES

GEN. BRYANT ANNOUNCES A
HOT FIGHT IN WISCONSIN.

Gardner P. Stickney Resigns as Secretary of the State Central Committee—La Follette Will Make a Tour of the State as Soon as Possible—Democratic Situation.

Milwaukee, Aug. 17.—The question of who will be the secretary of the republican state central committee will have to be settled without the consideration of the name of Gardner P. Stickney, the present secretary who has served the committee in that capacity for the last two years with credit to himself and benefit to the party. Mr. Stickney, though receiving offers of support for re-election, decided to accept an offer made him by the state pan-American commission which has charge of the Wisconsin exhibit at Buffalo next year.

Candidates For Secretary.
Who the new secretary will be is a matter that will be settled at the meeting of the committee, which was called today by Chairman Bryant for the afternoon of Aug. 22. General Bryant came to the city yesterday and spent the forenoon at the headquarters of the committee in the Pfister Hotel. He said he could not say who would take Mr. Stickney's place as secretary. Among the candidates are William Richter, the present assistant secretary; Zeno Host of this city, and Grant Thomas of Madison.

Campaign on State Issues
General Bryant said that the campaign in this state would be conducted mainly on state issues which have been brought to the front by Mr. La Follette in the past few years. However, national issues would be discussed whenever the democrats wished. Speakers of national reputation, the general said, would speak throughout the state.

Among them will be probably Speaker Henderson and Congressman Doherty, with others. Mr. La Follette will make a tour of the state as soon as he can get his law practice arranged so that he can take the stump. General Bryant said he received a letter from him recently in which Mr. La Follette said he was enjoying his outing on Isaac Stephenson's steam yacht, the Bonita, very much.

Martin Would Not Decline
P. H. Martin of Green Bay, whose is the latest name mentioned in connection with the nomination for governor on the democratic ticket, has been heard from, and while he will do nothing to secure the nomination, he believes it to be an honor that ought not to be declined if tendered. Mr. Martin is the only democrat so far, with the exception of Mr. Bomrich, who has not promptly declined the nomination for governor when his name has been proposed.

HERRICK WAS POISONED

Widow of the Aged Commission Merchant to Be Called As a Witness by Coroner.

Chicago, Ill., Aug. 17.—Poison in deadly quantities has been found in the stomach of Edwin P. Herrick, the aged commission merchant whose sudden death last week served to recall several mysterious deaths in the household, among the victims being his first wife. In January last Herrick married Mrs. Lymburner, formerly a domestic employed by the family. Mrs. Lymburner's first husband also died suddenly, it is said.

The result of the chemical analysis of the contents of the stomach will be produced before the coroner's jury. Mrs. Herrick, the widow, will be called as a witness.

Columbus, Ohio, Aug. 17.—It was found today that Express Robber Ferrill had bought the wedding ring that he gave Miss Costlow and a number of articles for interior decoration with money that he stole from the express company and she turned those articles over to the express company today.

She authorized her father to say that she was done with Ferrill, and now that she had time to calmly consider the awful experience she has had she had reason to be thankful that she had discovered his true nature before she was married to him.

LIMITED FAST MAIL
JUMPS THE RAILS

Sandusky, O., August 17.—[Special Telegram.]—The Lake Shore limited fast mail jumped the rails at one o'clock this morning at Bay Bridge. The express car was torn to splinters and the combination car with fourteen passengers rolled down the embankment to the waters of the bay. The passengers were rescued by train men and fellow travelers with axes. Messenger Hayes cut his way out.

No one was seriously injured. The road crosses the bay on a filled in pile bridge, two miles long, with a draw at the east end.

The train was running fifty miles an hour as it crossed the draw when the east rail broke. The first mail car with eight men went partially down the embankment; the second mail car also with eight men, went completely under.

Fourteen men escaped from the smoker, the door opening as the car entered the water. The well filled day coach rolled partly down the embankment, but the sleepers kept the track.

The track was soon cleared and the passengers sent on their way. The injuries were mostly cuts and bruises.

PROTEST AGAINST
ANY INTERCOURSE

Confederates of Army of Tennessee Do Not Like Gen. Gardner's G. A. R. Affiliations.

New Orleans, La., Aug. 17.—The Confederate Association of the Army of the Tennessee, which includes a large majority of the confederate veterans in New Orleans, has protested against Gen. J. B. Gordon, commanding the United Confederate Veterans, attending the G. A. R. encampment at Chicago.

As to the proposition that the confederate veterans issue a circular reply to General Shaw's recent remarks at Atlanta, General Chalorin, president of the association, insisted that General Shaw's remarks should be treated with contempt and contended that General Gordon should be censured for taking part in such meetings and for having accepted an invitation to attend a similar meeting at that place. Many speakers were heard pro and con, and finally General Chalorin offered the following resolution, which was unanimously adopted:

"In view of the recent occurrences at Atlanta and the utterances there of the commander of the G. A. R., this association deprecated and objects to all so-called reunions of the Blue and Gray, and protests against General John B. Gordon, accepting an invitation to be present at the reunion of the Grand Army of the Republic in his capacity of commander of the United Confederate Veterans."

PLEDGE SUPPORT
TO W. J. BRYAN

Anti-Imperialists at Indianapolis Endorse the Democratic Ticket and Adjourn.

Indianapolis, Ind., August 17.—The Liberty Congress of the American League of Anti-Imperialists last evening emphatically endorsed the candidacy of Wm. J. Bryan for president. The resolutions to that effect were read to the convention by Colonel Charles R. Codman of Massachusetts, who moved their adoption, after stating that the entire committee of twenty-five had endorsed them.

The convention, however, did not adopt the platform as submitted by the resolutions committee without a prolonged and heated debate. Thomas M. Osborne of Auburn, N. Y., leader of the "third ticket" movement, offered an amendment to strike out the endorsement of Bryan, and his amendment was vigorously supported by several delegates, and when the previous question was ordered less than a score could be marshaled to vote against the Bryan endorsement.

The vote was viva voce, and its exact result will never be known; but the sentiment of the convention was clearly shown as being in favor of the endorsement of Bryan, as the most effective manner of checking the alleged imperialistic policy of the administration. The convention then adjourned.

DEWETT ESCAPES
FROM KITCHENER

Boers Now in a Position to Prolong the War in Africa.

STEYN REPORTED DEAD

Kruger Wants Peace, But His Fighting Generals Insist on Continuing War.

END STILL A LONG WAY OFF

London, August 17.—[Special Cablegram.]—A Reuter dispatch from Pretoria says that De Wet has succeeded in escaping Kitchener and has joined Delarey.

Kruger's Wednesday, August 16.—General De Wet has crossed the Krugersdorp-Potchefstroom railway and is making to the north in order to join Commandant Delarey, who is holding Rustenburg.

Kitchener and the other generals are pursuing him and pressing him hard. His force is reported to be beyond Ventersdorp.

London, August 17.—Former President Steyn, according to a dispatch to The Daily Mail from Lorenzo Marques, dated yesterday, is reported to have died, while endeavoring to reach Mr. Kruger, as the result of a severe wound.

A British correspondent, recently released from captivity at Nooitgedacht, asserts positively that Mr. Kruger wishes peace, but that the fighting commanders insist upon continuing the war and would prevent his flight by force if necessary.

The burghers, according to the same authority, share this view. The Transvaalers have ninety guns at Machadodorp, with abundant provisions.

BURGHERS ARE MUCH ENCOURAGED

Preparing to Make a Last Stand in the Barton District

Pretoria, Aug. 17.—General De Wet, the Boer commander, whom the British have been unsuccessfully trying to capture for a long time, has now retreated northwest of Rustenburg. Eighty prisoners who escaped from him report that his strength is now 7,000 men. The Boers in the districts through which he passes take up arms again, and those who do not do so willingly are forced to join the ranks.

Commandant Steenkamp, who was wounded at Dornkop, and who subsequently took the oath of neutrality and returned to his home, is again fighting. General De Wet's success in evading the British is certain to bring large accessions to the Boers' fighting force. Small commandos near Johannesburg drove in the British outposts at Sachswald. General Viljoen, with 800 men, is directly north of here. The trial of Cordua, one of the conspirators recently arrested, has begun here. He first pleaded guilty, but later withdrew that plea. The evidence against him is very strong. He broke his parole and was caught dressed in a British officer's uniform. The plan of the conspirators, it is said, was to kill the British officers in Pretoria, seize General Roberts and to bring into the city a commando from General Botha's force. The trial is proceeding. Linchwe, the Kaffir chief on the western border, has made a raid into the Transvaal as far as Pilagaburg and has captured a number of cattle. The Boers are said to have been the aggressors. Linchwe is reported to be fighting in a civilized manner and is treating his prisoners well.

TESLA FREEZES WIRES

By This Means of Insulation the Inventor Prevents the Loss of Electricity.

New York, August 17.—A patent has been granted to Nikola Tesla for an invention which, if his claims are borne out, will prevent the escape of electricity from a wire. It is said to solve the insulation problem in a simple manner. He insulates the wire by passing through it, or near it, air kept at a low temperature, producing a coat of ice on the wire, which the inventor finds by repeated experiments cannot be broken through by the strongest currents and at the same time gives an insulation that costs practically nothing.

By the means of this latest discovery, the loss of electricity or electrical energy in transmission it is claimed can be rendered so small as to be insignificant and that power can be transmitted to great distances by means of underground wires.

Clearest in America.
The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road bed for that reason is rock ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

Wisconsin Weather Forecast

Thunderstorms, generally fair Saturday.

Too bad, isn't it, that we are to have a primary election law just as Mr. Buckley, after years of hard fighting, gets control of the democratic machinery? With the republican measure in force, bosses will be but privates in the ranks. Sorry, Mr. Buckley, but it stares you in the face.

Milwaukee has had all kinds of conventions, but if she wants to become acquainted with the real thing, she must arrange with the Hon. Mr. Buckley of Beloit, to have a Rock county democratic convention pulled off in her midst.

Only a few weeks more in which the democratic press can hunt up and reprint all the nice things said, in the past, about the republican candidate for governor, Hon. R. M. LaFollette.

The work on the Janesville & South eastern railroad is being pushed, but a railroad cannot be built in a day—especially the substantial kind of railroad the new line will be.

The republican platform declares support to every good law on the books, and the enactment of every additional good law needed. What more could be asked?

And then again, perhaps Mr. Bryan patronized a non-union print shop because of the fact that neither the Boers nor the Filipinos have printers' unions.

The Hon. Cornelius Buckley's democratic county convention was pulled off quite harmoniously, the Hon. Mr. Buckley being in personal charge.

The United States government is too good to the traitors. No man who counsels the killing of American soldiers deserves anything better than the noose.

It really doesn't make any difference, however, Mr. Buckley's convention cuts no figure. The winning ticket was named on August 1.

Charles F. Pfister of Milwaukee has been appointed a member of the advisory board of the Republican National committee.

The state bankers' society recently met in Milwaukee and the capitalists took great interest in its deliberations.

"Montague R. Levenson." The name sounds reasonable, too, doesn't it?

Genius brings its own reward. Witness, the rise of Buckley.

A FEW FACTS

With the exception of two years, years productive of distress, hunger, bankruptcy and panic, the destiny of the nation has been partially or entirely under the control of the republican party ever since the inauguration of Abraham Lincoln in 1861. During these forty years the country has advanced by leaps and bounds in population, wealth, material, social and intellectual development. The trans-Mississippi region has been converted from buffalo ranges to imperial states, bridges have been thrown across mighty rivers, railways have been built over the mountains, millions of homes have been created, schools

without number have been built, colleges have been endowed, human liberty has been extended, the verdict of the ballot has been respected (in republican states), and the republic has a deeper hold on the affections of its citizens than ever before, and compels respect abroad.

JEALOUS OF THE BEAR.

Russia's Seizure of Newchwang Resented by Britain.

New York, Aug. 17.—A special to the Herald from Washington says that Russia's occupation of Newchwang, without adequate reason, caused the decision to land troops at Shanghai, in which Great Britain is supported by Japan.

Germany apparently is paying no heed to Russia's action in the north, but objects to Great Britain's policy at Shanghai, and proposes to offset it by stationing a squadron there and landing troops to protect her interests.

This important information, just received in an official quarter here, presents a comprehensive view of the attitude of four of the principal powers interested in the Chinese situation with respect to the treaty ports of the empire.

In view of the determination of the American government not to interfere with the action of Great Britain and Russia in landing troops at the ports named the powers are thus divided with respect to the portentous complication in the international situation.

Great Britain and Japan oppose the occupation of Newchwang by Russians and the former has landed troops at Shanghai to counterbalance the czar's move in the north.

Russia, Germany and France object to Great Britain's action at Shanghai, while the St. Petersburg government will not withdraw and thus remove all reason for the policy of the British government in the south.

The United States remains neutral. The occupation of Newchwang by Russia has aroused great excitement in Japan. It took place, according to information received here, on Aug. 4.

Pathetic Sight at Atchison.

A pathetic sight was witnessed in the soldiers' orphans' home at Atchison, Kan., a few days ago. A poor mother came to see her child, a boy two years old. She was allowed to put it to sleep with the understanding that when the child was asleep she was to go away. The child soon went to sleep and the mother, wakened it, she was so anxious to be with it. She did this half a dozen times.

Practical Arizona Woman.

A clever Arizona woman who cleared over \$400 the past season on the olives which she herself prepared for market bids fair to open a new industry. Besides the olives prepared in the usual manner she put up a large number, using the same formula as for mustard pickles. These found a ready market, the demand being far ahead of the supply. With the gathering of the crop of October she is planning to make a specialty of this new departure in olives.

DOLLAR WHEAT IN SIGHT

Prediction Made by the Secretary of Agriculture.

REASONS FOR GOOD TIMES AHEAD.

Country's Prosperous, Wheat Crop's Short and Price Must Go Up, He Says—Corn Abundant and Likely to Be Cheap—Farmers Advised to Feed It Rather Than Sell.

"We will have dollar wheat before the end of the year," is the confident prediction of Secretary of Agriculture James Wilson. The secretary has been making a careful study of the domestic and foreign demand for wheat this year and in view of the crop estimates which his experts have made looks for rising prices. When asked by the Washington correspondent of the New York Sun for a statement of the crop prospects and the probable prices of agricultural products during the present year, the secretary said:

"The outlook for good prices was never better. We have a shortage in the American crop this year which will probably amount to 100,000,000 bushels. This alone would serve to make the present yield more valuable. There are additional reasons, however, which incline me to believe that wheat will make a marked advance before the end of the present year. The primary cause for an advance is the condition and outlook of the home market.

"This year the demand for the great bulk of our crop is at home, and the people have the money with which to pay for whatever breadstuffs they desire. Not only will our people be the best fed people in the world during the present year, as they have been in years past, but they will be better fed than they have ever been in years past. They have plenty of money to buy all the wheat they want for bread and will have flour left over for cake if they want it.

"Hard times directly affect the price of wheat by decreasing the demand and at the same time cut off the consumption by decreasing the buying power of the people. For example, the consumption of wheat and wheat flour in this country in 1894 fell to 3.41 bushels per inhabitant. In 1896 it increased to 4.78, and in 1898 it was 4.21, while last year it increased to 5.95 bushels per capita. This year the consumption of wheat per capita will go above last year and will probably be nearer seven than six bushels, because this year the people are better able to buy than ever before, as the mills and factories are going everywhere and labor is receiving more general and more generous employment than ever before. Moreover, the farmers themselves are getting good prices for all their products and will not be forced to stint themselves in their food supplies and in their buying. The shortage and the increased domestic demand will make foreign countries which will buy wheat pay more, and the price must advance."

"Then, would you advise farmers who have wheat on hand not to sell?" was asked.

"That of course is a matter that each man must decide for himself."

Continuing, Mr. Wilson said that he thought there would be little or no rise in the price of corn. On the contrary, lower prices might be expected for this cereal. Said he:

"The corn crop this year is unusually large. Perhaps there has never been a better prospect for corn at this time of the year in the country. The large supply will mean lower prices. When money is plentiful and prosperity is general, the demand is always for the higher grade of foodstuffs. Our people will eat more wheat bread and less corn bread than usual this year. It is true that prices for both wheat and corn may be temporarily affected by the falling off of the market in the east, but this trouble can be only temporary, as the demand for flour is there and is steadily increasing.

"It will probably be advisable for our farmers to feed much of their corn this year into sheep, horses, cattle and hogs, as the price of meat is high, and the outlook for a continuous demand for our meat products both at home and abroad is excellent. Germany can exclude our meat on whatever pretext she pleases, but if she is going to feed meat to her soldiers in China she must buy it in Chicago. Moreover, our meat is the best in the world.

"With the stimulus which our foreign commerce is getting and the introduction of our manufactured goods into other markets, the home demand for all food products must grow and steadily increase. Moreover, we may look for an increase in the average price of our farm products from this time on for the same reason."

Men Dined in Shirt Waists.

A shirt waist dinner was given at Morristown, N. J., the other night at the house of Alexander H. Tiers. It was the beginning of a movement in favor of the new garment. The guests numbered 26 and included several women. Among the men were several who are prominent in financial and legal circles. The women were evening dress and the men shirt waists and black trousers. The new costume was voted a decided benefit in the way of comfort, and its general adoption by the fashionable colony here seems to be assured.

Our Military Resources.

A Modernized Poke.

Hats of all shapes, kinds and conditions are worn now, but there is still a new one from Vienna. It is a modernized poke, to be trimmed with a large bow of ribbon, silk or velvet, and several small bunches of roses well forward on the brim. The crown is medium height, drooping a little toward the top, and the brim drooping at the back is manipulated in curves to suit the face, and raised a little underneath to give place to a dainty bow.

DULLER SENDS HOME A FLAG AND KNIFE

Interesting Filipino Trophies Received From a Soldier By His Mother In Janesville.

Mrs. Sarah E. Duller of 457 South Jackson street received a package from Manila this morning. It contained a blood stained Filipino flag and a rusty dagger. The articles were sent by her son, Fred J. Duller, a corporal in Co. G, Forty Seventh regiment U. S. V.

The flag is made out of ordinary cotton bunting about four feet wide and six feet long. The stripes are blue and red. On the top there is a triangle insertion of white bunting. In each angle there is a small gilt star. This triangle is spotted with stains which Corp. Duller says is Filipino blood.

The dagger is a ferocious looking instrument. The blade is about eight inches long, sharpened on both side and is crooked. A crude brass guard to protect the hand is mounted between the blade and the ebony handle.

Captain Duller says he knocked down a Filipino captain and captured the flag and knife.

FIRE AT HOME OF ELLIS BLAKE

Was Caused by a Gasoline Stove and Was Soon Put Out with Very Little Damage.

A fire alarm turned in from box 42 at the corner of Lincoln and Holmes streets, at 10:10 o'clock this morning, called the fire department to the home of Ellis Blake, on Park avenue.

The fire was caused by a gasoline stove and was extinguished without damage before the arrival of the department.

Mrs. Blake was using the gasoline stove to boil some water, and she thinks it must have boiled over and extinguished the flame. The gasoline continued to run from the burner and was ignited by the other burner which was still ignited, and blazed up fiercely.

Mrs. Blake, with rare presence of mind, took some flour that was near by and succeeded in smothering the flames with it after a hard fight, in which she burned one of her hands, but not severely.

The front of the building is occupied by the Park grocery and the rear by Mr. and Mrs. Blake. It is a frame building and would have made a hot fire had not Mrs. Blake succeeded in smothering the flames.

TWO TERRORS.

Bryanism is Real. White Imperialism is Imaginary.

A Boston man who has gained some prominence as an antixpansionist, but who sees in Bryanism a far greater menace than that which by any possibility is involved in the continuance of President McKinley's policy respecting our newly acquired territorial possessions, writes to The Transcript as follows:

"If all the friends of antixpansion should vote for Mr. Bryan, he might carry congress with him, and if so then we should have free silver and free trade, and these would work more evil to this country than the Spanish war has done. Under the Dingley tariff our manufactures have prospered as never before. It has stimulated our exports and made us the leading commercial nation of the world. If Mr. Bryan should be elected with a Democratic congress, which would mean a Bryan congress, it is starting to think of the class of politicians he would have about him. Should that time come we should be obliged to bid goodbye to good government.

"My advice to all friends of antixpansion is to stand by the grand old party which has never failed but once, and that was on the question of expansion. If I could see any other way out of this dilemma, I should gladly adopt it."

This Boston man shows excellent sense and sound patriotism in his choice between what he considers two evils. He chooses the least, and as the result of this choosing he and all the rest of the antixpansionists whose votes shall make certain the re-election of President McKinley will discover long before the president's second term shall have expired that they did wisely and well to fight down and put to rest once for all the real peril of free trade and bad money and to leave to the American people the ultimate decision of the question what to do with the Philippines. Imperialism is a bugbear, and time will prove it to be so. Bryanism is a terror and a danger only to be removed by a crushing defeat at the polls next November.

BRYAN AS PRESIDENT.

What Would Follow the Election of the Populocrat Candidate.

Imagine Mr. Bryan elected president and installed in office. The country is in a state of unrest and apprehension. Business men have taken in sail until business is practically at a standstill. An extra session of the new congress is urged on the one hand and advised against on the other. Mr. Bryan finally yields and calls congress together. It is announced that he is about to begin writing his message. What will it contain? The people everywhere are curious, and Washington fills up with northern men and southern men, eastern men and western men, all anxious for a word with the president as to what in their opinion the situation calls for.

The northern and eastern men urge a conservative course. Do nothing to add to the distrust of business circles. Knock off some of the war taxes and let it go at that. On no account mention either silver or the tariff of the debt will be to pay. The western and southern men and particularly the Populists urge a straight out declaration. Why hold back? Why undertake to cover up? Mr. Bryan's views are known, and on the strength of them he obtained hearty and heavy support in the west and south. Shall he now go back on those who made him? Are free silver and tariff reform to be shunted at the instance of those Democrats under whose counsels Grover Cleveland wrecked himself and temporarily the Democratic party?

How would Mr. Bryan come out of a test like that? Wait and see how he comes out of the present test. He is on trial now. The Kansas City platform follows the lines of his dictation, and his wishes also prevail in the matter of his running mate.

DEATH OF B. A. F. MAMROEV.

Once Seward's Private Secretary and Author of a Life of Christ.

New York, Aug. 17.—B. A. F. Mamroev, at one time private secretary to William H. Seward, died suddenly at his home in this city, aged 49. Mr. Mamroev was a Russian, born in Jerusalem, and when Mr. Seward met him there he was serving as American vice-consul. Upon leaving Mr. Seward's service, Mamroev assisted in the preparation of Appleton's Encyclopedia, writing many important articles for that publication on subjects connected with the countries in the east. His most important literary work was a life of Christ, published in 1895, under the title of "The Story of the Life of Jesus the Nazarene," which attracted much attention from Bible scholars.

CRISPI ON ITALY'S FUTURE.

Says the Nation Must Have a Strong Navy for Defense.

Rome, Aug. 17.—La Ravista Marittima publishes an article by Sig. Crispi, in which the ex-premier urges an increase of the navy. He says that during the existence, for eighteen years, of the triple alliance, Italy has not had an organized defense. From 1860, he further says, to the present time 2,650,000 have been spent on the navy, which, however, has descended from third place, in 1890, until it is now seventh among the navy powers. Sicily, continues the article, cannot be defended without a strong fleet, nor can many Italian colonies be safeguarded against foreigners.

Unique Gift for Carnegie.

New York, Aug. 17.—The faculty of Stevens Institute of Technology, Hoboken, N. J., has just sent to Andrew Carnegie a unique gift in appreciation of his generosity toward the institute. The gift is a section of an original 36-pound "T" rail from the Camden & Amboy railroad, inclosed in a handsome case. The case also contains facsimiles of letters, specifications and bills connected with the history of the first "T" rails. The piece of "T" rail sent Mr. Carnegie was furnished by the president of the institute, Dr. Henry Morton. The rails for the Camden & Amboy tracks, between South Amboy and Bordentown, were rolled in 1831, President Morton says, and were the first "T" rails designed or made, although the Vignoles rails, produced in France several years later, have generally been credited with being the earliest.

A Mother Tells How She Saved Her Little Daughter's Life

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in its worst form. We thought she would die. I tried everything. I could think of, but nothing seemed to do her any good. I saw by an advertisement in our paper that Chamberlain's Colic, Cholera and Diarrhoea Remedy was highly recommended, and sent and got a bottle at once. It proved to be one of the very best medicines we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know what an excellent medicine it is. Had I known it at first it would have saved me a great deal of anxiety and my little daughter much suffering. Yours truly, Mrs. Geo. F. Burdick, Liberty, R. I.

During the civil war, as well as in our late war with Spain, diarrhoea was one of the most troublesome diseases that the army had to deal with. In many instances it became chronic and the old soldiers still suffer from it. Mr. David Taylor of Wind Ridge, Green Co., Pa., is one of these. He uses Chamberlain's Colic, Cholera and Diarrhoea Remedy and says he never found anything that would give him such quick relief. It is for sale by Smith's Pharmacy, next to postoffice; Kodak agents.
